**Ideanomics' MEG To Provide Energy Procurement Services for China 5G Tower Projects and EV Charging Infrastructure**

- MEG's energy sales division was established to sell pre-paid wholesale electricity and metered electricity via charging networks.
- A cooperation agreement provides MEG with rights to provide electricity for multiple infrastructure projects, which include 5G towers and new energy vehicle charging piles.
- MEG's IoT/IoV 5G Energy Services division is positioned to capitalize on China's New Infrastructure Investments starting in 2020.
